MODEL 2128

Belt or Chain Drive
Garage Door Opener

PROFESSIONAL LINE

WITH
**ALADDIN
CONNECT**

INTELLIGENT CONTROL
FOR YOUR OPENER

Highlights

- **Integrated Aladdin Connect®** – With Wi-Fi smart-home integration you can control and monitor the Model 2128 from nearly anywhere with a smart device.
- **Dependability** – The quality built into a Model 2128 is backed by a 10-Year Limited Warranty for the motor and 15-Year for the belt drive rail (5-Year for chain drive rail).[◇]
- **Durable, reliable performance** – The strong DC motor operates most properly balanced residential sectional doors up to 8' high. Model 2128 has an opening speed of 7" per second*.
- **Soft Start & Stop Control** – DC technology allows your door to begin and end its movement smoothly instead of abruptly whenever you operate it, creating less noise and less wear on the door.

THE GENIE STORY: Genie has a rich history in developing garage door openers that feature reliability, strength, safety, security, and convenience. Since 1954, Genie has produced millions of openers that serve millions of satisfied homeowners every day of every year. Shouldn't you have one in your garage? Genie — The Brand You Trust.

* +/- 0.5" per second for sectional doors.
[◇] Limited non-transferable warranty. See Programming, Operation & Maintenance Manual for details.

Features & Benefits

POWER & CONTROL

DC Motor Smart Technology – The DC motor provides quiet operation as well as Soft Start & Stop control. This means the door begins & ends its travel smoothly, not abruptly, which lessens noise as well as wear & tear on the garage door.

C-Channel Rail – Strong rail design helps promote durability and safety. Also conceals the belt (or chain) for better appearance.

Belt or Chain Drive – Choose the belt drive option for quieter operation or chain drive for economical value.

SAFETY

Safe-T-Beam® Non-Contact Reversing System – When objects pass through the infrared beam, the garage door automatically stops closing and reverses open without having to make physical contact with the door.

SECURITY

Intellicode® Access Security System – Prevents thieves from using unauthorized remotes to open your door by always selecting a new code from billions of combinations each time the opener is operated.

Sure-Lock™ Control – Allows you to lock out remote controls and wireless keypad at any time for increased security – also known as a vacation lock.

CONVENIENCE

Auto Seek Dual Frequency – The opener automatically uses either 315 or 390 MHz frequency to avoid potential nearby interference, such as military base equipment, to help ensure the opener operates properly.

Pre-Programmed Remote – Ready to use out-of-the-box with simple steps to change the programming if so desired.

HomeLink® & Car2U® Compatible – Works with current & ALL previous versions of HomeLink® or Car2U®. No additional external repeater kit or compatibility bridge needed.

Aladdin Connect® INTEGRATED WI-FI CONNECTIVITY

Remotely monitor and control your garage door from almost anywhere with your smart device. Time-based features allow you to set door to automatically close and/or notify after a set length of time; as well as schedule a specific hour and minute to close the door and/or notify when it does. Also allows for multiple individual user accounts so you can provide virtual key access for your garage door to a friend, relative, or service person for a certain time, a range of time, or permanently.

Compatible with:

Use the Aladdin Connect app to control any combination of 20 different Genie Wi-Fi integrated garage door openers or standalone Aladdin Connect Door Control Modules.

Convenience Options

Genie® Garage Door Opener LED Bulb

Common LED and CFL bulbs can emit interference to limit the range of garage door remotes. Incandescent light bulbs, which are being phased out due to energy inefficiency, can have their lives shortened by vibration associated with opener operation. The Genie LED bulb solves these and other problems to ensure the garage door opener light doesn't leave your garage in the dark!

Wireless Keypad

Easy-to-program keypad mounts outside your door to give you convenient code access to your garage, which is great when you are outside without the remote control. Back-lit keypad lets you easily see the numbers & control up to 3 openers. Uses Auto-Seek Dual Frequency (315/390 MHz). Choose a color for the flip-up cover that best complements your home. White is standard, other colors sold separately.

Illuminator™ LED Remote

Perfect for homeowners on the go, this 2-button remote features a bright LED flashlight and comes with an 18" lanyard for carrying convenience. It can operate up to two Genie garage door openers with Intellicode®.

Wireless Wall Console

An attractive wall console that's completely wireless for flexible placement in the garage. Enjoy the optional pulsing back-light as well as delay button that gives ample time (up to 30 seconds) to exit the garage before the door begins moving. The work light button can turn just the opener's light on at any time. Compatible with most Genie Intellicode® openers made since 2013.

CALIFORNIA RESIDENTS – This opener is not for sale in California. It does not have a battery backup function as required by California SB-969. Visit www.geniecompany.com for our full lineup of compliant models or ask your Genie dealer for details.

¹ Limited non-transferable warranty. See Programming, Operation & Maintenance Manual for details.
